Register: 240-285-4349 or karenm657@comcast.net

CLASS DESCRIPTION:

REIKI Level 2 training builds on the momentum and growth achieved in level one. This level is the goal to achieve for students who wish to achieve greater personal mastery in healing or for those committed to the health and wellness including healers and health care professionals looking to expand their field of study and practice.

At this level emphasis is given along with additional tools for helping others to heal physically, mentally, and emotionally. Additional information is given about the human energy system (chakra system) and the underlying causes of illness and “dis-ease”.

Open to ALL level one practitioners regardless of who taught you level one. Each level one practitioner is expertly taken to the next level and taught the use of sacred symbols to dramatically increase the power of REIKI. The focus on mental/emotional balancing alone makes this level of training powerful and transformative for all who take it.

Level Two also includes training in a powerful technique for distance healing, which is taught in class. An additional attunement is given by the Master-Teacher in order to empower and increase the flow of energy through your body and hands. Upon completion you will become certified as a Reiki II Practitioner.
